## Ivanhoe Mines comments on share price

### CITIC Metal C\$723 million private placement on track to close in September

**VANCOUVER, CANADA** – Ivanhoe Mines (TSX: IVN; OTCQX: IVPAF) announced today that the company is not aware of any company-specific reason that might be contributing to the recent decline in the company's share price.

The CITIC Metal Co., Ltd. C\$723 million (approximately US\$553 million) private placement remains on track to close in September. The placement is subject only to customary closing conditions, and recordals and registration with certain Chinese government regulatory agencies. In addition, Ivanhoe's joint-venture partner at the Kamo-Kakula Project, Zijin Mining Group Co., Ltd., has exercised its existing anti-dilution rights, which will result in additional proceeds of C\$78 million (approximately US\$60 million) that Ivanhoe will receive concurrently with the completion of CITIC Metal's investment. Ivanhoe Mines has approximately US\$165 million of current working capital.

Ivanhoe continues to advance its exploration and development activities on accelerated timetables. Ivanhoe's exploration team is focused on drilling high-priority targets on its 100%-owned exploration land position in the Western Foreland and Kamo North target areas. Ivanhoe expects to provide an update on its exploration programs in September.

#### About Ivanhoe Mines

Ivanhoe Mines (TSX: IVN; OTCQX: IVPAF) is a Canadian mining company focused on advancing its three principal projects in Southern Africa: the development of new mines at the Kamo-Kakula copper discovery in the Democratic Republic of Congo (DRC) and the Platreef platinum-palladium-nickel-copper-gold discovery in South Africa; and the extensive redevelopment and upgrading of the historic Kipushi zinc-copper-germanium-silver mine, also in the DRC.

## Cautionary statement on forward-looking information

Certain statements in this news release constitute “forward-looking statements” or “forward-looking information” within the meaning of applicable securities laws. Such statements and information involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company, its projects, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or information. Such statements can be identified by the use of words such as “may”, “would”, “could”, “will”, “intend”, “expect”, “believe”, “plan”, “anticipate”, “estimate”, “scheduled”, “forecast”, “predict” and other similar terminology, or state that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved.

Such statements include without limitation: (i) statements regarding the CITIC Metal C\$723 million equity transaction remains on track to close in September; and (ii) statements regarding Ivanhoe’s expectation to provide an important update on its Western Foreland and Kamo North exploration programs next month.

Forward-looking statements and information involve significant risks and uncertainties, should not be read as guarantees of future performance or results and will not necessarily be accurate indicators of whether or not such results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements or information, including, but not limited to, the factors discussed under “Risk Factors” and elsewhere in the company’s MD&A, as well as the inability to obtain regulatory approvals in a timely manner; the potential for unknown or unexpected events to cause contractual conditions to not be satisfied; unexpected changes in laws, rules or regulations, or their enforcement by applicable authorities; the failure of parties to contracts with the company to perform as agreed; social or labour unrest; changes in commodity prices; and the failure of exploration programs or studies to deliver anticipated results or results that would justify and support continued exploration, studies, development or operations.

Although the forward-looking statements contained in this news release are based upon what management of the company believes are reasonable assumptions, the company cannot assure investors that actual results will be consistent with these forward-looking statements. These forward-looking statements are made as of the date of this news release and are expressly qualified in their entirety by this cautionary statement. Subject to applicable securities laws, the company does not assume any obligation to update or revise the forward-looking statements contained herein to reflect events or circumstances occurring after the date of this news release.

The company’s actual results could differ materially from those anticipated in these forward-looking statements as a result of the factors set forth in the “Risk Factors” section and elsewhere in the company’s MD&A for the year ended December 31, 2017 and its Annual Information Form.
